INDUSTRIAL ENGINEER - SYSTEM ENGINEER

I am an Junior at Hacettepe University Industrial Engineering Department. I wanted to be an industrial engineer since childhood so I am interested in industrial engineering disciplines but my favourite is Operation Research. I am skilled at problem solving and communication. I'm interested in football, table tennis and loop music. I want to improve myself in the fields of defense industry, manufacturing and management. After completing my industrial engineering education, I want to do a master's degree in aerospace engineering. I want to focus on the field of simulation.

SKILLS & COMPETENCES

- Technical Drawing with using AutoCAD
- Python / R
- Creativity
- Analytic Thinking
- Excel Knowledge (Solver Applications)
- Project Management

EDUCATION

UNDERGRADUATE EDUCATION

Industrial Engineering(Eng) - Ankara
